--	--	---	--	--

Note: To meet individual students' needs, principals may replace up to three of these courses (or the equivalent in half courses) with courses from the remainder of those that meet the compulsory credit requirements. **(OSS, 3.2)**

Please look at program requirements to determine what prerequisites you need for your post-secondary program.

The courses listed under Group 1, 2 and 3 are just suggestions. Students can take other courses to meet those requirements, as long as they are not already included in the other 15 compulsory courses. Any course that does not count under the 18 compulsory courses (15 plus the 3 groups) is considered an optional/elective course.

All courses run based on sufficient enrollment.
